AN IDEAL LAUNCH PAD

R+T RUSSIA is an ideal launch pad for exhibitors seeking to gain access to the Russian construction market. R+T RUSSIA offers:

- > Fast track access and direct interaction with professionals from Russia and neighboring countries
- > Facilitates new business with key industry segments and visitors from a broad cross section of construction related industries
- > Networking facility and opportunity to obtain valuable market background as well as to gain access to forthcoming projects within the region

“We are sure that the exhibition will help Russian specialists to set up foreign contacts. So far the export is low. Now we are paying more attention to Russia and are ready to share our experience with Russian companies. We hope that they will help us to explore the Russian market and import new technologies.”

Friedrich Klopotek, Managing Director,
National Federation of Door and Gate Manufacturers
(BVT-Verband Tore)

“The exhibition R+T Russia 2012 was a success. The majority of the visitors turned out to be our potential clients. We’ve had a great experience, we’ve presented unique products which have no competitors in Russia. We think, R+T should attract more foreign guests to become the key platform for Russian and foreign specialists’ communications.”

Antoni Hernandez Moya, Sales Manager,
RUTPERFIL, S.L

“This project does not require any advertising. We know R+T Stuttgart, and visit it each time. So, when we’ve heard about the launch of R+T Russia, we decided to exhibit immediately.”
