

POLISH DAY ON FOR ARCH

MATCHMAKING OPPORUNITY

On 17.09.2013 group of polish companies from construction sector will visit International Building Trade Fair FOR ARCH. We offer a great opportunity to establish new business contacts and become familiar with the possibilities of cooperation with Polish Companies. We offer possibility to take part in B2B meetings with representatives of leading companies strongly interested in starting cooperation in Czech Republic.

The meeting will be held at the Bussiness Center in Entrance hall I, help in translation will be provided by organizer. If you are interested to take part in B2B meeting with polish company – please fill the application form and send it to: katarzyna.subko@interservis.pl.

Event is free of charge.

For any further information please contact with Ms. Katarzyna Subko (katarzyna.subko@interservis.pl)

KING KLINKER

KLINKIER PRZYSUCHA

www.kingklinker.com

KING KLINKER has been a tile manufacturer since 1972.

We combine the achievements of the traditional production of clinker ceramics with modern technological solutions in this field. The manufacturing process is based on the conventional method for clinker production in the so-called “drawn products technology”. This production method gives our products an extremely natural appearance and very good technical parameters. **Our offer includes the comprehensive solutions in the field of façade and stair systems, wide range of clinker sills as well as fencepost caps and wall profiles.**

The main advantages of our products are their resistance to weather conditions, frost resistance, low absorption, durability and high aesthetic values. Our products meet European standards and are marked with the CE sign.

CEZAR

www.cezar.eu

CEZAR offer includes construction and finishing profiles and decorative trims to tiles and terracotta, plus skirting boards, door frame trims and other products. The latest technological solutions are used in production which in combination of carefully selected components guarantees supreme quality. The future of CEZAR relies on its continuous development based on implementation of new technologies, new products and improvement of customer service.
